Dear Parents/Carers

Nut Allergy

We have some pupils in the school who suffer from a serious nut allergy. This can bring on anaphylactic shock, not only if they eat nuts but also if they touch a surface where nuts have been, or if they breathe air containing nut particles.

Could we, therefore, please ask that you do NOT include items containing nuts in your child's packed lunch, whether or not they have an allergy to nuts. This includes peanut butter/Nutella sandwiches.

Thank you for your help.

Yours sincerely

Moira O'Donnell
