

ST. PETER'S  
PRIMARY  
SCHOOL

## The aim of Religious Education (from the SACRE Agreed Syllabus)

The principal aim of religious education is to:

- Enable pupils to understand and reflect upon the religious and spiritual beliefs, practices, insights, and experiences that are expressed in humanity's search for meaning in life;
- Provide opportunities for pupils to explore and express their own responses and personal beliefs.

The principal aim of the Croydon Agreed Syllabus for Religious Education will be met through the Programmes of Study which incorporate two components:

- Attainment target 1: Learning about Religion
- Attainment target 2: Learning from Religion and Human Experience

## RE Intent Statement

We expect that by learning about Religion and beliefs, the children of St Peter's Primary School will develop respect and empathy for those around them and in the wider world.

Religious Education at St. Peter's will promote pupils' understanding of the multicultural and multi-faith society that we live in today. It is believed that this understanding will help pupils to be tolerant of people's differences.

Pupils will be provided with opportunities to develop their spiritual, moral, cultural and social learning. Having learned about different faiths they will explore and express their own responses and personal beliefs.

Each year group will focus on a Big Question agreed through the Croydon Agreed Syllabus. Following the syllabus and using the units of work will enable pupils to explore their own and other attitudes and discover the answers to these questions.

We believe that through creative planning and the use of music, art, drama, film, online resources, visits, and visitors, and by handling artefacts children will enjoy learning about, and learning from, the faiths of others and have opportunities to develop their own understanding of the diverse and unique community we live in.
