MCAS
(MyChildAtSchool)

My Child at School App (MCAS)

What is MCAS?

At St. Peter's Primary School, we will start to use MCAS as our main point of communication between the school and families.

MCAS allows you to view and update key information about you and your child. We will use the app for the majority of our communications and alerts, booking free clubs and booking parents evening appointments. The information provided below should answer most of your questions, if not the full MCAS user guide can be found **here**.

Why use the MCAS App?

➢ Update Information - You are able to update your contact information with an easy click.
➢ Receive emails and text messages from the school office.
➢ Book parents' evenings appointments for your child(ren).
➢ Announcements - you will be able to view announcements as soon as they have been issued out by the school.

How do I get the App?

iPhone users can download the MCAS app via the App Store and Android users can download the app via Google Play.

Logging into your account

Families can log into the online portal using your email address given to the school. You can access your account by:

➢ Logging in from a web browser www.mychildatschool.com or access MCAS mobile phone app, this will open the Parent Login screen.
➢ Enter your email address and password. Use the email address registered to the MCAS account and the password to login. If you have not yet set a password, use the reset password link.
➢ Click the login button.
➢ Log into the MCAS account and see all pupils linked to that email address.

Important - Password Requirements

Your password should be...

- At least 8 characters long
