Monday 6th September 2021

Dear Parents and Carers,

Welcome to Year 6. We hope you had an enjoyable and restful summer-we are delighted to welcome the children back to Year 6. We will be hosting a virtual 'Coffee Morning', where we will explain more about the year ahead and be able to discuss any questions from parents regarding the curriculum. The date for this will be sent out in the coming weeks.

**Homework** – This will be handed out weekly on a Friday and is due on Wednesdays. Each child has been given a homework folder with their homework inside. Each week, the children are expected to read daily, learn their 10 spellings and complete a maths sheet (following on from the week's learning). Homework needs to be completed in the homework book and returned inside the folder. If your child does not understand anything, please do not hesitate to ask for help from the class teacher.

**Reading** - To be undertaken daily and recorded in their yellow reading journals. Books can be borrowed from school or brought in from home. Reading journals will be monitored weekly by your child's class teacher. In Year 6, we expect a minimum of 4 entries per week and will be checked on a weekly basis (Friday's).

**Phones-** Children must hand in their phones at the start of every day and collect it from the box at the end. Each class has their own phone box; phones will be stored in a locked cupboard during the school day as phones are not permitted during the school day. Please note, this also applies to other smart devices (e.g. smart watches).

**Pencil cases**- Please ensure your child brings their pencil case to school every day. Pencil cases should contain: HB pencil, ruler, rubber, sharpener, glue and coloured pencils (handwriting and editing pens will be provided by the school). Please note that sharpies are **not** allowed to be used at school.

## <u>Curriculum</u>

**Maths** – This term will start with focussing on children's understanding of number, place value and revising the formal methods for addition, subtraction, multiplication and division. We will be focusing largely on arithmetic questions to ensure this is embedded.

**English** - We will be familiarising the children with writing for a variety or different audiences and purposes. This includes: letter, diary, poetry, recount, non-chronological report, newspaper article, advert. We will incorporate our topic learning with our English writing. There will also be a focus on spelling, punctuation and grammar (SPAG). In SPAG we will be revising word classes, commas, semi-colons, clauses, multi-clause sentences and learning the keywords for year 5 and 6.

onze level accreditation 2019

**IPC** – Our topic for the Autumn term is World War Two and the Battle of Britain. We will be studying the events that led to the Battle of Britain; becoming familiar with the location of countries involved; understanding the events of the Battle of Britain; understanding how the Home Front contributed to the war effort and appreciating what life was like for evacuees.

**Science** – We will be learning about light this half term through a range of theory and practical lessons. The children will consolidate and improve their understanding of how light travels, reflection & refraction, how to investigate what causes changes in shadow size as well as how we see colour.

**RE-** We will be following the Croydon RE curriculum (SACREA). This half term we will learning about Christianity and explore sacred texts and inspirational writing. RE will be taught bi-weekly by Mrs Ayres.

**PE** – The children will have PE on Friday. Children need to attend school in appropriate PE kits on these days as we will not be changing in the classrooms. Please note that PE will go ahead even in light rain.

**Swimming-** On a **Monday**, children will be attending swimming lessons at Whitgift School (starting Monday 13th September). Children will need to bring appropriate swimwear, a towel and girls will be required to wear a swimming hat.

**Computing-** The focus for this half-term will be E-safety (sharing information online and knowing what is not safe to share) We will also be starting a Unit on coding. We will design programs using children's choice of objects, attributing specific actions to each using their new programming knowledge.

Once again, we will be using **Seesaw** as a key method of communication. We would really appreciate it if you could sign up to Seesaw to receive notifications, messages and pictures. **Please be aware that you will need to enter a new code for Year 6.** Do not hesitate to contact the class teacher via email if you would like a new class code.

Please feel free to contact us if you have any concerns. We are available most days before and after school or alternatively you can make an appointment through the office if this is not convenient. As mentioned above, we are also available via Seesaw's messaging service and the school email (<a href="mailto:admin@spps.foliotrust.uk">admin@spps.foliotrust.uk</a>). We look forward to working with your children and meeting you all in due course.

Yours sincerely,

Mrs Smith (6S and Year 5&6 Phase Leader) & Mr Jagger (6J)
