Choose ten food items in your kitchen. Add the weights together. What is the total in g and kg?

Find ten words that you do not know from the year 5 and 6 spelling list and write them in a paragraph.

Find a recipe for your favourite cake. Convert each of the measures into kg and l. Clue: ÷ 1000

Practise Spellings at least once a week. Below is a website of spelling rules for practise and support. https://spellingframe.co.uk/spelling-rule/5/Year-5-and-6

Mathletics http://uk.mathletics.com/
Practise what you have learned in school at home and please print the exercise you have completed.

Write a story set on the planet Pandora.

Take some photos to share

Make one of the following:
A model of the solar system
A sundial
A rocket fit for the moon

Write a diary entry from the perspective of one of the characters in your reading book.

Watch the moon for a week and create a diary to show the different phases.

What is the heaviest food item in your kitchen? How do you know? How much would seven weigh?

Using the numbers 1-10 and + - x ÷ What is the biggest number you can make?

What is the biggest number you can make?

Tell me ten facts about the number: 8.43

Year 5 Summer Term Homework

Each week choose a different task from the menu. Please tick off and write the date when completed (both next to the boxes and at the top of each page). As well as a task, please practise the spellings sent home each week. Spellings will be tested weekly. Children will be given ten sums each week to complete. In addition to this, please read daily.
